By using our website you agree to our use of cookies. Food and Agriculture Organization of the United Nations. Julie Guthman. ViewProduct.Searchfor:. From the time we wake until the time we sleep, our consumption of energy is virtually seamless. It is cosmically unlikely that the developed world will choose to end its orgy of fossil-fuel consumption, and the Third World its suicidal consumption of landscape. Proceed to Basket. Thisbookisnotintendedtoconveyadetailedreviewofourenergyuseasanati the primary purpose of this book is to introduce and discuss a set of energy-policy concepts that can help people better understand the energy civilization in which we live and better understand and contextualize arguments over specific energy policies.
