Kenneth Geide He also suggested that universities need to be more sophisticated in responding to the threats, even as he said he was encouraged by the steps some universities have taken to try to address the issue. Lawson, Dominic 17 January Retrieved 3 April The HSI Office of International Affairs has 71 offices around the world that work to enlist the support of their host governments to initiate new investigative leads and to develop information in support of ongoing domestic investigations. That is, the same technology has both military and civilian applications. CI measures absorb company resources that would otherwise be used for growth.

ArsTechnica.Economicandindustrialespionagehasalonghistory.Counter officials should brief firms in these sectors on cybersecurity best practices, and, since most employees at small tech companies are unlikely to have security clearances, declassify information that would make the warnings more credible and actionable. Sifting through more than a dozen of the major cases that have targeted Westerners, though, provides an illuminating window into how China recruits its spies.
