This is also supported by the Royal College of Obstetricians and Gynaecologists⁷. This means that liquid medications may be given in their unthickened state or, alternatively, thickened to a different texture than that advised. It is known that malnutrition and dehydration in care homes can lead to increased risk of hospitalisation, readmission and long term ill health¹.

HeadandNeck.Managementofdysphagiainstroke:Aneducationalmanualfort Archives of Physical Medicine and Rehabilitation. This can be a significant issue because saliva will be introduced to the thickened drink from the first sip. Dysphagia: Foundation, theory and practice.

Keepingwithaprescribingtheme,IwelcomeAlisonSmithbacktogiveusaninf we get some vitamin D from dietary sources, we make most of it through the action of sunlight on our skin through a series of reactions Figure 1.
