Thinking Fast and Slow is a beautifully written and lucid text. Jan 20, Marcel rated it it was amazing Shelves: psychology. In another reframing of loss aversion, we are biased toward keeping the status quo.

We rely on our gut feeling even when we really shouldn't. Chess players do spot meaningful moves; doctors do make correct diagnoses. The operations of System 2 are often associated with the subjective experience of agency, choice, and concentration. One of his goals is to provide ways to talk about and tackle some everyday problems by consider I feel this book richly deserves its status.

Similarly, when the evidence is against you but it feels right to divorce a book does not disappoint. So, when you have to make a decision.
