Identify the options that you can reasonably take 5. Patents Development of the GII will both depend upon and stimulate innovation in many fields of technology, including computer software, computer hardware, and telecommunications.

E-commerce ventures may use the web hosting services of ISPs who allocate and make available to them sufficient server space for their e-commerce requirements.

Hence, it is doubtful that a server would be construed as a PE for the company. F

Permanent Establishments -The revised commentary to Art 5 of OECD Model Tax Convention clearly states that a non-resident enterprise with an Internet website alone would not be regarded as having permanent establishment in the country in which the website is located. Government is making effort to create a balance between economic growth and generation of revenue in the InfoTech global environment.

A server need not have any geographic connection either to the source country systems, and particularly international taxation arrangements, can struggle to keep pace with globalization and market liberalization. In most cases, the absence of a PE, would mean that no tax implications would be incurred from that country and only the source countries tax laws would apply.
