Design principle: The power of desire lines - UX Planet

Here is this week's design principle post. It is focused on desire lines or desire paths, whichever you prefer. This story illustrates a great way to.

Desire paths: the unofficial footpaths that frustrate, captivate campus planners

We've all been there. You want a short cut - to the bus stop, office or corner shop - but there's no designated path. Others before you have.

"Desire Lines" Are the Real Future of Urban Transit

A desire path is one worn into being by people walking the same route over and over, off the paved or "approved" path. Some of you will find.

Calm Down With This Subreddit Full of Desire Paths

Spontaneous by nature, desire paths are the most optimal way to get from point A to B as decided by pedestrians, not planners.

Desire Paths and Real World UX

Desire paths are "paths created as a consequence of foot or bicycle traffic." Some demonstrate the difference between Design and UX, others have been.
