Review: skies of gold (the ether chronicles #5) by Zoe Archer  
I'd never dare to pick up sequels without reading the first book in the series first!.

Skies of Gold is the latest in the Ether Chronicles series. The only other book I'd read in the series was the somewhat disappointing Night of.

Two Lonely Hearts Kalindi MacNeil survived the devastating enemy airship attack that obliterated Liverpool, but even her engineering skills can't seem to.

After a couple of days she runs into a large and forbidding stranger, who stirs her blood with passion.  
ZoeArcher.Greatromanticadventure! Besides beings a gorgeous hunk to stare at, he also has a heart of gold, and even though he has a past and is struggling with his own demons, his faults only made him more endearing at times. Hearts of Shadow. Let us not forget Fletcher who as a Man O' War something akin to Wolverine except instead of claws he gets a huge body and really strong, The story switches settings several times and the start to be honest took some dedicated reading for a few chapters before I warmed to the story, but one it was moving, it was enticing and entertaining.  
OK,close.One island and sure they could have avoided each .
